Sliktop

Simplicity - Performance - Style

Sliktop

PVC Fabric Conditioner and Cleaner Specially formulated Ph neutral cleaner for all PVC fabrics including Marquees, Tents, Canopies and Sidewalls.

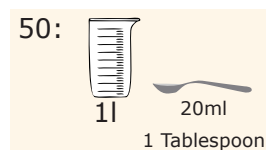

Sliktop Ingredients:

Alkylbenzene sulphonic acid, coconut diethanolamide, sodium lauryl ether sulphate and urea, dissolved in water.

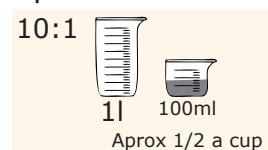

Instructions

Dilution Rates:

Normal

Spot Clean

Sliktop is Phosphate free, non toxic and biodegradable by microbial action and provides an excellent cleaning performance while protecting valuable PVC surfaces when used as instructed.

Instructions For Use

Normal Clean:

- Lay out fabric on clean well drained surface
- Wash thoroughly with 50:1 Sliktop solution using floor mop or soft broom
- Avoid harsh scrubbing or pressure spraying
- Rinse off with fresh water
- Hang to dry
- Fold and store only when thoroughly dry

Spot Clean (Prior to regular clean):

- Use 10:1 Sliktop Solution to remove small areas of dirt or marks (cleaning with Sliktop may reduce but will not remove embedded marks or stains)
- Finish off with regular clean
- Always be sure to thoroughly rinse off detergent residue
- Never store your P.V.C in a damp state
