SIMPLICITY · PERFORMANCE · STYLE

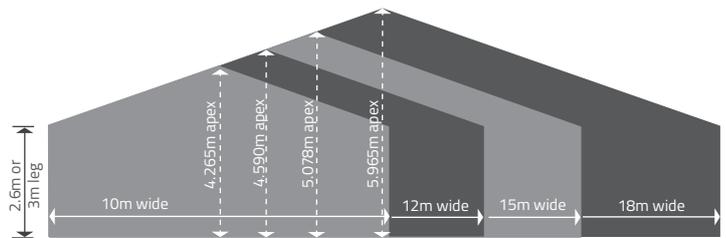

Great on both sealed and unsealed surfaces.
Can easily be attached to a building or used as a free standing unit.

- 10m portal width with 5m portal bay increment | leg 2.6m or 3m
- 12m portal width with 5m portal bay increment | leg 2.6m or 3m
- 15m portal width with 5m portal bay increment | leg 2.6m or 3m
- 18m portal width with 5m portal bay increment | leg 2.6m or 3m

Simplicity, Style, Flexibility

Fabric

All Baytex Marquees have a high tech lacquer surface coating for a smooth, glossy, dirt resistant finish. Fire retardant fabric specially treated to prevent moisture wicking. Choice of Ferrari Translucent or Blockout PVC in white or a choice of colours. Arched purlin tension system to provide a taut fit and noise reduction. All walls retractable, high clearance and wide width curtain wall for truck access. Side wall bottom bars lowered for optimal weather protection. High frequency welded for optimum strength, fabricated in NZ.

Hardware

Anodised alloy rail components for strength and durability. High quality electro galvanised steel connectors ensure long lasting, clean appearance. Arched Purlins for fabric tensioning. Premium NZ sourced, Industrial quality. Hard guttering can be installed.

Easy to Clean

The PVC surface can be readily cleaned with a non-bleach mild detergent or Baytex 'Sliktop'.

Manufacturing

CAD designed and computer cut for dimensional accuracy. Manufactured onsite at Baytex as for the last 50 years.

Specifications

Baytex Alispan comfortably spans from 10m to 18m and extends to any length in 5m modules. PS1 engineering design report to B1 specification provided. All Alispan are supplied with all hardware, PVC roof, plain PVC walling.

Considerations for your warehouse

You will require a reinforced concrete pad or localised footings and strip drain on outer edges. You can install this yourselves, it is simple to erect with no loose bolts. As this is unit is derived from our marquees then you could contact a local Hire Company to install. It can easily be attached to buildings or used as a free standing unit.
