

PROVIDING ESSENTIAL COMFORT FOR CLEAR ROOFS

Hood Liners

Throw over liners provide essential shade during set up. Choose to pull off with ease prior to the event, or leave on and guests will appreciate the comfort and enjoy the beauty of clear roofs.

SIMPLICITY · PERFORMANCE · STYLE

Keeping you covered and adding style

Fabric

Baytex Liners are manufactured from 100% polyester fire retardant fibre for maximum durability and easy care. All Baytex Silklime fabrics are inherently flame retardant, they have a soft finish with a beautiful silky sheen that resists hard creasing.

Specifications

Can be supplied with ropes to secure in place. All linings are supplied in colour coded carry bags.

Fire Rating Certificates & Flame Retardance

- DIN 4102-1
- AS/NZ 1530;PtsII & III
- NTA 8007:2007 'Brandgedrag van Verseiringsmaterialen' Classification B
- NF P 92-512:1986-M1
- BS5867 Part 2 Type B
- NFPAI 701 (small scale)
- CPAI-84
- New York Board - Bull #44

Simple Set Up

Pull over and tie down with rope. Joins between panels are closed with continuous velcro tape. Installation accomplished from ground level.

Manufacturing

CAD designed and computer cut for dimensional accuracy. Manufactured onsite at Baytex for the last 40 years.

"When choosing a Clear Marquee, we knew we needed to include a liner for each marquee to make sure the marquee was kept cool for our clients, leading up to their event, but also that it was easy to remove, so there was no room for human error or stress. Something we didn't currently see in the industry. Our Baytex liner is the most practical liner in the industry we have seen, making both our job, and the removal of the liner by the client, a simple, stress free and seamless experience.

We now not only have a liner for each of our 8 clear marquees but would never erect a clear marquee without one."

Lucy Burke - Director, L.L Hire.
