Blocks 10% of Infra-Red radiation

### Ultraclear PVC Warranty:

2 years

Contender NZ Ltd, guarantees for a period of two years from date of original purchase that the clear PVC marketed by the company under the trade name "Ultraclear", will not become unserviceable due to UV degradation or under normal operating conditions. Contender NZ Ltd further warrants the clear PVC material meets all published factory specifications current at the time of manufacture. This warranty does not cover scratching, shrinkage less than factory specified tolerances, or damage due to abuse or improper cleaning and maintenance. A further condition is that a regular cleaning programme must be complying with the recommendations in our literature. The above guarantee is applicable to the original purchaser only. When a complaint is received, the determinations of the manufacturer or recognised industry association is the sole basis on which replacement or refund is made. The liability of Contender NZ Ltd is limited under this warranty to replacement of material only, or refund of the original purchase price, on a prorated basis of life served, i.e.: 1st year 100% and 2nd year 50%. Liability for negligence or any consequential loss is expressly excluded.

Regular cleaning practices when not in use will greatly enhance expected life. The use of harsh chemicals for cleaning should be avoided, as these can scratch the material. Clear PVC should only be cleaned with a diluted solution of mild soap and warm water or Baytex Sliktop. Rinse with clean water and dry with a soft cloth or a sponge. Do not use solvents or chemical cleaners. Do not expose UltraClear to abrasion. The surface can be scratched by rubbing with a coarse cloth, or even in general usage and these are impossible to remove. We recommend Plexus or Vuplex plastic cleaner.
